

Syed Asghar Abbas

Lucknow, Uttar Pradesh, India

syedasghar479@gmail.com — linkedin.com/in/syed-asghar-abbas — 6389706928

Education

Integral University

Bachelor of Technology in Electronics and Communication Engineering
7.5 CGPA

Lucknow, Uttar Pradesh

2023 – 2026

Board of Technical Education, Uttar Pradesh (BTEUP)

Polytechnic Diploma in Electronics and Communication Engineering
71 Percent

Lucknow, Uttar Pradesh

2020 – 2023

Experience

Embedded Systems, Robotics with IoT Intern

Techpile Technology Pvt. Ltd., Lucknow, Uttar Pradesh

June 2025 – August 2025

- Awarded Gold Medal for outstanding performance in embedded systems and IoT project development
- Designed and implemented IoT-enabled robotics systems using microcontrollers and wireless communication protocols
- Developed firmware for embedded applications integrating sensor data acquisition and real-time processing
- Collaborated with cross-functional teams to optimize system performance and troubleshoot hardware-software integration issues

Embedded Systems & Robotics Intern

Softpro India Computer Technologies (P) Ltd., Lucknow, Uttar Pradesh

August 2022 – October 2022

- Received Best Performance Award for exceptional contributions to robotics and embedded systems projects
- Built and programmed autonomous robotic systems using microcontrollers and sensors for navigation and obstacle detection
- Implemented control algorithms for motor drivers and actuators to achieve precise robotic movements
- Conducted testing and debugging of embedded circuits, reducing system errors by optimizing code efficiency

Technical Skills

Core Electronics: Digital Signal Processing, Digital Image Processing, VLSI Design, Communication Systems, Circuit Analysis

Programming & Tools: MATLAB, Python (Basics), C/C++ (Microcontrollers), Embedded C, Microsoft Excel (Advanced)

Embedded Systems: Microcontrollers (8051, ARM, AVR), Microprocessors, IoT Integration, Sensor Interfacing, Firmware Development

Hardware & Protocols: Circuit Design, PCB Layout, UART, SPI, I2C, Wireless Communication (WiFi, Bluetooth)

Technical Expertise: Robotics, Real-Time Systems, Signal Processing, Data Analysis, Technical Problem-Solving

Languages: English (Professional), Hindi (Full Professional), Urdu (Native)

Projects

Brain Tumor Detection Using Antenna

AI Based smart Security, Voice and Mobile Controlled Robot

IoT-Based Smart Monitoring System

Digital Signal Processing for Audio Applications

Certifications

Introduction to IoT and Digital Transformation — Getting Started with AI on Jetson Nano — Web Development Fundamentals

Introduction to MATLAB and its Application in Communication Systems — Spreadsheet Applications from Beginner to Advanced
